HOW COULD I HAVE KNOWN?

(written by Kenneth Cope)

Chasing a star
Running long, running hard
Trying to put me a face with a dream
So elusive it had been
Again and again
I'd about given up on the game
But then the slightest chance that I might suit you
And I came calling to recruit you

Well, I struck gold that day
When you took my name
And gave yourself to me
Was it lucky this time
Or some higher design
Steered by Masterful Hands on the wheel
'Cause I'm amazed at the way it's unfolding
It's like I managed to choose what was chosen

CHORUS:

I come to you and you come to me As love is set in stone It's now beyond my wildest dreams With forever left to go How could I have known?

It's an uncertain road
'Cause when there's two, who can know
If love will still bloom in the fall?
And yet, look where we've come
How the years have made us one
And your smile was the start of it all
And you continue to wow and surprise me
All the treasures you've been hiding

REPEAT CHORUS

Right from the start I'm richer by far And every day together Makes a better me

REPEAT CHORUS
