

## **BROTHERS**

(written by Kenneth Cope)

(Joseph)

We have shared so many sorrows  
Been together through extremes  
But I ask you now, dear brother  
Part with me  
'Cause I sense the greatest danger  
And you've so much left to give  
I want you to live

(Hyrum)

*Now you know I'll never leave you  
And I trust in God to save  
But if not, then I am ready for the grave  
I've been true to you forever  
And I'm not about to change  
This brother stays*

### **CHORUS:**

**(Both)**

***Brothers in name, brothers in heart  
Never to fade, whether near or far  
Brothers in life, brothers in death  
We'll stand by each other  
My brother  
Through now and the end***

You shall not have want for friendship  
*There will be no need for care*

**(Both)**

***For as long as you are living  
I'll be there***

*I'll go with you into prison*

*I'll go with you into death*

**(Both)**

***Again and again***
