

## MAN TO MAN

(written by Kenneth Cope)

Holy heart in holy heaven  
Shaped this house of clay  
Formed this soul—a mirror image  
To carry on His name

Earthly heart with earthly treasure  
Gone and lost its way  
Wooed by sight's deceiving measure  
Followed long in vain

It's change I'm seeking  
To wake from sleeping  
And stage a meeting  
Till our hearts are beating as one

### CHORUS:

*Reach me, find me  
Lift and light me  
Groom me, guide me  
Man to man  
Work me, try me  
Gold refine me  
Transform who I am  
From man to Man*

To try these shoes before I wore them  
And know they're prone to stray  
To dive beneath these fatal waters  
And claim the captive prey

Today I'm pleading  
For favor and healing  
So chains won't keep me  
From our hearts beating as one

### REPEAT CHORUS

Like Father, like Son  
Why I was begun  
Take me to the high road  
And point me to the perfect day to come

### REPEAT CHORUS

*...Finish what love began  
Change me from man to Man*

*Lead me, guide me, walk beside me  
Help me find the way...*
