

SILENT TREATMENT

(written by Randy Kartchner & Kenneth Cope)

What have I done to bring this on
What made her walk away
I hope it doesn't linger on
Love's not that way

Now was it somethin' that I said
Or somethin' I might have done
Could she have taken part of me
And read it wrong

I'm not seein' the reason
That's turned her away
And she won't say

CHORUS:

*She's giving me the silent treatment
When she should be talkin' to me
She needs to see that the silent treatment
Can never be a way to ease her pain*

I've stayed away from guessin' games
But now I'm forced to play
Why would she want to punish me
Why must I pay

I only want to make it right
But she won't let me in
She's gone and locked her heart up tight
Till who knows when

If she's needin' the healin'
That wipes dry the tears
Then why this

REPEAT CHORUS
